Making Compliance Fast + Easy + Painless

Medical Ethics Training

Medical Ethics Training offers medical ethics training and certification for individuals and organizations. Medical ethics provides a set of guiding principles that serve as the foundation for all medical care. Healthcare professionals and researchers utilize medical ethics to guide them in making the difficult decisions required of them every day.

Medical Ethics Training

Healthcare professionals are required to make difficult decisions every day as part of their jobs. For each situation that arises, they must strike a balance between:

- providing effective care;
- doing what is best for a particular patient and for society in general; and
- allowing a patient to have a voice in treatment options.

To help guide them when making difficult decisions, healthcare professionals rely on a set of principles known as medical ethics. Medical ethics provides information about the standards of acceptable behavior that serve as the foundation for medical care.

Does your organization have a medical ethics compliance program? Healthcare facilities and medical research organizations should put in place a medical ethics compliance program to ensure that their staff and the organization as a whole are adhering to the industry standard norms of medical ethics principles. These training and compliance programs help ensure that workers are informed about the medical ethics delimmas they will face daily and how to address them properly.

Adhering to industry accepted medical ethical standards and guidelines will result in successful patient interaction, improved outcomes, proper legal compliance, minimized financial losses, and reduction of any potential disputes or litigation.

MedicalEthicsTraining.com offers medical ethics training and certification for an individual or an organization. A wide range of medical ethics topics are discussed in this training such as patient confidentiality, informed consent, surrogate decision making, disclosing medical errors, medical research, beginning and end-of-life issues, etc. Case studies are also provided to apply principles learned to real world situations.

Audience:

Any individuals who work in healthcare or medical research.

Examples:

Physicians, Nurses, Hospitals, Laboratories, Pharmacies, Medical Students, Medical Research, Medical Ethics Committees, Institutional Research Boards (IRBs), Healthcare Professionals/Workers

Online Medical Ethics Training

The online training is meant to handle the educational component and training requirement.

Rollout Our Smart Training to Your Workforce in 5 Minutes or Less

How? Our training system is smart - **very smart** - and does almost everything for you. All you have to do is to email generic instructions to your staff. It is the same instructions for everyone and we've already pre-typed the instructions for you.

Have staff that doesn't have email? No problem, print off the instructions and give it to them as a piece of paper.

Once you provide the generic instructions to your staff you are done. The smart training system then takes over from there and trains, tests, generates certificates, emails you a copy of those certificates, and maintains a training log.

It can't get any easier.

- ✓ Our smart system utilizes a single shared multi-user login that eliminates the hassle of having to setup and manage multiple usernames and passwords.
- ✓ Everyone from your organization can log in from home or work (24x7) using the same shared login (no limit on simultaneous users).
- ✓ On passing the final exam, each individual is prompted to enter their name. The system then generates a PDF certificate for the individual and emails a copy of the certificate to the administrator for record keeping.
- ✓ The smart system maintains a detailed training log automatically for you.

The medical ethics course is **3 hours** long, self-paced, and generates a **2 year** certification upon completion.

Each employee receives their own certificate and wallet card immediately online upon successful completion of the training.

There are no contracts or minimums. Our training works like a phone card so you can just purchase as you need. We provide a cumulative discount over the life of the account so it always gets cheaper over time.

Pricing Per Course

Qty of Training Seats	Pricing Per Seat
1-9	\$29.99
